---

## SUMMARY

Fresh Front-End Developer with a bachelor's degree in computer science, motivated to build clean, responsive, and user-focused web interfaces. Proficient in modern front-end technologies including React.js, JavaScript (ES6+), and Tailwind CSS, with hands-on experience integrating REST APIs and using Git for version control. Eager to grow professionally while contributing reliable and well-structured solutions.

---

## PROJECTS

### Feastly – Restaurant E-Commerce Web Application

- A responsive, modern restaurant ordering interface built with React.js and Tailwind CSS, featuring dynamic Swiper sliders, reusable components, and a smooth, mobile-optimized menu browsing experience.
- Demo: <http://feastly-five.vercel.app>

### Emages – High Quality Images Download Web Application

- Emages is a web application that provides high-quality images for browsing and download through a clean, user-friendly interface. It enables users to quickly discover, preview, and download visually rich content for creative and professional use.
- Demo: <http://emages.vercel.app>

### Eat-N-Split – Billing Web Application

- Eat-N-Split is a React-based web app that helps users split bills and track shared expenses among friends. It simplifies calculating who owes whom through an intuitive, interactive interface.
  - Demo: <https://eat-n-split-blue-six.vercel.app/>
-
